The usual high class program of pictures will be shown at the Butler this evening at follows: "Bunny's Honeymoon," a Vitagraph comedy which is a scream from start to finish; "Robert Hale's Ambition," a Selig story of a mother's sacrifice; "The Wardrobe Lady," an Essanay comedy drama, and an Edison feature, "Master and Man." Having captured a burglar, a dissipated clubman takes a compact with the crook that he will stop drinking if the latter will reform. Both men live up to the agreement and the burglar who has entered the clubman's employ shows his gratitude by a magnificent sacrifice. Tomorrow, "Pauline Cushman, the Federal Spy," a Selig

Montana Cafe

All you have to do is to ask for Schlitz
in Brown Bottles.

Sunlight grows hops, but spoils the beer.

"Beer acted upon by light soon takes up
the very disagreeable, so-called 'light
taste,' and also a repulsive, skunk-like odor,"

says no less an authority than the Wahl-Henius Institute
of Fermentology, the scientific authorities on
the subject. "Beer so affected," they say, "is
offensive to the palate of most consumers."

Light starts decay even in pure beer. Dark glass
gives the best protection against light. The Brown
Bottle protects Schlitz purity from the brewery to
your glass.

Why don't you, too, drink Schlitz? More and
more people every year are demanding it.

We started in a hut. Today our agencies
dot the earth. Our output exceeds a million
barrels a year.

See that crown or cork
is branded "Schlitz."
